Universal Children's Day

1,200 children start smoking every day in Pakistan: speakers

ISLAMABAD: The Society for the Protection of the Rights of the Child (SPARC) observed Universal Children's Day 2026 under the theme 'My Day, My Rights, My Future - Protect Children from Tobacco Products,' says a press release

The event gave children a platform to express views and highlight expectations for a healthy, safe and tobacco-free future.

Members of the Child Rights Clubs presented their Charter of Demands, calling for a comprehensive ban on all forms of tobacco advertising, promotion and sponsorship (TAPS). Their demands included restrictions on brand stretching, brand sharing, sponsorship, tobacco industry Corporate Social Responsibility (CSR) initiatives, social media marketing, and promotion of emerging nicotine products.

Murtaza Solangi, Spokesperson to the President of Pakistan, said children's voices must be heard. Protecting children from tobacco harms requires coordinated efforts in line with Pakistan's commitments under the WHO Framework Convention on Tobacco Control (FCTC). He noted approximately 1,200 children aged 6-15 in Pakistan start smoking every day.

Farah Naz Akbar, Parliamentary Secretary, National Heritage and Culture Division, said Universal Children's Day is a reminder that every child has the right to grow up in a safe, healthy and supportive environment. Every child should grow, learn and play without exposure to harmful products and marketing.

Huma Akhtar Chughtai, MNA, emphasised listening to children's voices and respecting their Charter of Demands.

She said she would bring children's demands to relevant parliamentary forums for a tobacco-free future.

Nawabzada Mir Jamal Khan Raisani, MNA, said protecting children's health, rights and future is a shared responsibility. Children must be protected from tobacco advertising, promotion and sponsorship, including marketing through social media and digital platforms.

Zahra Wadood Fatemi, MNA, said children deserve a safe environment where they can learn, grow and pursue dreams without exposure to harmful and addictive products. Their voices should be reflected in collective efforts to strengthen awareness and support effective measures.

Dr. Khalil Ahmad Dogar, Program Manager at SPARC, said Pakistan has achieved important milestones in tobacco control, but further efforts are needed to address growing availability of tobacco products and marketing exposing children. He highlighted marketing at retail outlets, on digital platforms and in communities, including point-of-sale displays, digital promotions, brand stretching, CSR activities and sponsorship. He emphasised a protective environment free from tobacco exposure.

Rahat Ali, Director General Monitoring, PEMRA; Waiza Rafique, Legal Advisor, National Commission on the Rights of Child (NCRC); and Tehreem Qureshi, Youth Advocate, also spoke, highlighting coordinated efforts to safeguard children's rights. Members of the Child Rights Clubs also presented performances on children's rights and harmful effects of tobacco.

EU backs skills development for Pakistan's energy transition

By Jamila Achakzai

ISLAMABAD: European Union Ambassador Raimundas Karoblis Thursday called for investment in a skilled workforce and said it was essential to Pakistan's energy transition and economic competitiveness.

"Pakistan's energy transition and economic competitiveness depend on a skilled workforce. Through our Team Europe partnership, we are investing in people and creating opportunities for young people," he said at the inauguration of the upgraded Technical and Vocational Education and Training Centre of Excellence.

He said the centre would help young people acquire practical, industry-relevant skills meeting international standards and improve their employment prospects.

The inauguration marked another milestone in the Team Europe TVET Sector Support Programme, co-financed by the European Union and the German Federal Ministry for Economic Cooperation and Development (BMZ). The programme is upgrading eight sector-specific centres of excellence across Pakistan to equip young people with skills required by evolving labour markets and support sustainable economic growth.

The initiative is part of the EU's Global Gateway investment strategy, which aims to mobilise up to €400 billion in public and private investment worldwide between 2021 and 2027, including in skills development and infrastructure.

With support from the EU and Germany, the Abbottabad centre has been upgraded with modern, industry-standard equipment in eight laboratories for training in solar photovoltaic systems, electrical installations and mechanical trades. Several buildings and blocks have also been rehabilitated.

The centre offers three-year diploma courses in electrical, mechanical and civil disciplines and has received international accreditation. It will also serve as a regional hub for training teachers and master trainers in modern technologies and green trades. More than 1,000 students are expected to receive training there during the programme.

GIZ Country Director Maria-Jose Poddey said strong vocational education linked quality training with industry requirements. The upgraded centre will provide modern facilities, skilled instructors and relevant qualifications, helping young people prepare for careers in the energy sector and contribute to sustainable development, she added.

Dr Muhammad Irshad, adviser for technical education to the Khyber Pakhtunkhwa government, appreciated the EU and Germany's cooperation in strengthening technical and vocational education in the province.

He said the centre would help prepare skilled professionals for the energy sector by providing young people with practical training aligned with labour market demands.

Later, Mr Karoblis, accompanied by British Council Deputy Country Director Ben Lawton, inaugurated the upgraded Government Technical and Vocational Centre for Women at KTS Haripur.

The centre is part of the programme's hub-and-spoke model, linked to the Centre of Excellence for Digital and High-Tech Skills at the Institute of Management Sciences (IMSciences), Peshawar. It will also serve as a model institution for delivering advanced training courses.

1,439 receive degrees at FJWU convocation

By Afshan S. Khan

RAWALPINDI: Fatima Jinnah Women University (FJWU), Pakistan's first university dedicated to women's higher education, held its 23rd Commencement here in the university premises. Mr. Ahsan Iqbal Chaudhry, Federal Minister for Planning, Development and Special Initiatives, was invited as a chief guest. The Vice Chancellor thanked the Minister for his support of the higher education sector, including strengthening universities, establishing centres of excellence and enhancing faculty pay packages.

A total of 1,439 graduates received degrees: 30 PhD, 179 MS/MPhil and 1,230 bachelor's. In all, 41 students received gold medals and 27 received silver medals. FJWU, established in 1998, now has an alumnae network of over 21,449 graduates and hosts the secretariat of the All Pakistan Women Universities Consortium.

Concern voiced over repeated postponement of LG polls

By Myra Imran

ISLAMABAD: The Islamabad Citizens' Network has expressed serious concern over the Islamabad High Court's decision to suspend the local government election schedule, stating that Islamabad's residents have been deprived of their democratic right to elect local representatives for nearly five years.

Since the expiry of the previous local councils in February 2021, the Election Commission of Pakistan (ECP) has announced election schedules five times, only for them to be postponed or withdrawn. On one occasion, elections were postponed just a day before polling. Constituency delimitations have reportedly been carried out six times, causing uncertainty and undermining public confidence in the electoral process.

In a statement issued on Thursday, the network criticised successive federal governments and relevant institutions for their failure to ensure timely elections. It pointed out that candidates have spent millions of rupees on election campaigns and repeatedly paid nomination fees, without receiving refunds despite the postponement of elections.

While acknowledging the need for electoral processes to comply with legal and constitutional requirements, ICN maintained that administrative failures and political considerations cannot justify the continued denial of democratic rights. It demanded that the federal government and the ECP resolve all outstanding issues and hold elections under the ICT Local Government Act 2015 without further delay.

The network also urged the ECP to refund nomination fees to affected candidates and called upon the Islamabad High Court to adjudicate the matter expeditiously. It further stressed that Article 140-A of the Constitution requires an effective local government system with meaningful political, administrative and financial powers devolved to elected representatives.

SBP BANKING SERVICES CORPORATION
