Brief Description

Terms of Reference for External Quality Assessment (EQA)

1. Objective

PESCO’s Internal Audit Directorate (IAD/the Directorate) seeks to engage a qualified external firm to conduct a comprehensive External Quality Assessment (EQA) of the IAD in conformance with the 2024 IIA Global Internal Audit Standards (“the Standards”).

The EQA will evaluate internal audit function in conformance with the Internal Audit Manual, 2012 (“the IAM”), approved by the Board of Directors in 2012, and the Standards covering governance and positioning, organization’s control environment, practical implications, risk assessment and planning, execution and reporting. It will also include a review of the IAM in line with the Standards.

This engagement will provide the Directorate with an independent baseline against which its transformation, as envisaged in the three-year Comprehensive Transformation Roadmap and Strategy for the Internal Audit Function shared with the competent

forums, can be measured. Timely completion of the EQA is critical to supporting the Directorate's Transformation Roadmap/Strategy.

2. Scope

2.1. External Quality Assessment (EQA)

Under this component, the IAD will be assessed for the last three financial years, from 1 July 2022 to 30 June 2025, in accordance with the Standards and in fulfilment of the requirements of Standard 8.4. The Standard requires that a full external assessment be conducted at least once every five years by a qualified and independent assessor or assessment team, including at least one active Certified Internal Auditor. The EQA will include:

2.1.1. Conformance with the Standards and Review of the IAM. Examine the IAM by reviewing and aligning it with the IAD's Internal Audit Universe and risk frameworks, in the context of the organization's control environment, practical implications, adequacy of its resources and budget to fulfil its mandate and implementation requirements, and to address conflicts of interest and other related matters. Assess departmental challenges in conformance with the Five Domains i.e (Purpose, Ethics, Governing Framework, Performance of internal audit services) of the Standards to identify gaps and opportunities for improvement, with the objective of achieving the "Three Personas" envisaged under the IIA 2035 Vision. Establish a sustainable mechanism for the continuous progress of PESCO's Internal Audit Function (IAF), enabling it to attain best international practices in the years ahead. It also includes assessing the adequacy of the organization-wide first and second lines of defense against national and international best practices, relevant professional-body standards, and the Standards.

2.1.2. Risk Assessment Practices. Conduct a risk assessment of PESCO's business processes and formations, and assess the adequacy of the First-Line Risk, Control Ownership and Audit Observation Remediation Accountability Framework (FCRAF) and the proposed Second-Line Risk Management and Compliance Framework, including Risk and Control Self-Assessment (RCSA), with active communication with all stakeholders. Further, examine the concentration of the current audit universe across various risk bands (activity wise, circle wise/formation wise) assess the sampling techniques specified in the IAM 2012 and updated revised IAM. It should Identify formations and activities where audit frequency or scope may be reduced, as specified in the IAM. Revise the

proposed IAM to enable the IAD to achieve the desired risk maturity level and provide independent assurance and advisory services to the Board of Directors, in accordance with the mandate envisaged in the organization’s governing framework. Additionally, suggest value additions to achieve the objectives of the governing framework and align the function with best practices.

2.1.3. Adherence and Resourcing Review. Assess recent engagements for adherence to the IAM, the available man-day schedule, and the coverage of complete Audit Universe, including complete compliance universe, the adequacy of audit resources and skill sets against the key steps required to revamp the IAD in line with the Standards, and the impact of current vacancies, including at supervisory level, on delivery of the Annual Internal Audit Plan.

2.1.4. Benchmarking and Gap Analysis. Benchmark the Directorate against the Standards practice to identify areas of non-conformance or potential improvement, focusing on risk-based planning, reporting formats, resources and skill sets. This includes assessing the potential for digitization and process automation across the audit cycle, application of data analytics techniques, evaluating audit turnaround time to cover complete Internal Audit Universe, and assessing the robustness of the Directorate's follow-up mechanism for tracking audit observations to verified closure.

3. Deliverables

3.1. External Quality Assessment (EQA) Final Report

3.1.1. **Conformance Review.** Evaluates the Internal Audit Department's alignment with PESCO's internal policies and procedures and with the Standards.

3.1.2. **Risk Assessment Evaluation.** Assesses the approach to identifying and prioritizing risk for audit planning, including the design and execution of Risk and Control Self-Assessment (RCSA), including annual audit plan gauging adherence to recognized frameworks such as COSO and ISO 31000.

3.1.3. **Performance Gaps and Revised Internal Audit Manual.** Identifies gaps between the current IA Manual (2012) and the Standards, having regard to the organization’s control environment, application of sampling techniques, internal audit formats and delivers a reviewed, upgraded Internal Audit Manual aligned with the Standards.

3.1.4. **Actionable Recommendations.** Presents a prioritized plan to address identified gaps in the organization, strengthen risk-based planning, and standard Quality and Assurance Plan.

PROPOSED TERMS OF REFERENCE (TORs)
ENGAGEMENT OF INDEPENDENT THIRD-PARTY AUDITOR
FOR AUDIT OF PESCO IT SYSTEMS

1. BACKGROUND

Peshawar Electric Supply Company (PESCO) manages mission-critical IT infrastructure supporting 3.7 million customers. These IT systems support billing, revenue, finance, HR, metering, and operations. These include:

- Integrated Billing System (IBS) provided by PITC,
- Oracle ERP (E-Business Suite), PESCO-owned Data Centers,
- Meter Data Management (MDM) for AMR meters,
- Hosting Facilities, and Enterprise Networking Infrastructure.

Currently, PESCO is at a digital crossroads: the Oracle ERP (E-Business Suite) implementation has remained in a protracted phase for more than a decade. Simultaneously, the stakeholders, especially IT department, faces a severe human resource crisis; following a 2025 rationalization, the department is operating with only 8 resources against a sanctioned strength of 43 (reduced from 81). PESCO requires a rigorous third-party audit to identify bottlenecks, ensure revenue assurance, and secure its digital assets.

PESCO seeks to engage an independent third-party auditor for a comprehensive ERP, Billing and related IT Systems Audit and report on implementation, security, controls, efficiency, compliance and risks.

2. OBJECTIVES OF THE AUDIT

The primary objectives of the IT Systems Audit are to:

- **Implementation Completeness:** Conduct a detailed "gap analysis" of the decade-long ERP project to provide a definitive roadmap for completion.
- **Revenue Assurance:** Validate the integrity of the Integrated Billing System (IBS) and PITC Meter Data Management (MDM) to prevent revenue leakage.
- **Forensic Integrity:** Detect unauthorized data modifications and evaluate the tamper-proof nature of system logs.
- **Infrastructure & DR Readiness:** Assess the capability of Data Centers, high availability and the viability of the Disaster Recovery (DR) site.
- **Operational Sustainability:** Perform an HR Need Analysis to determine the minimum viable technical team required, for each module, to sustain operations.

- **Licensing Audit:** Perform a "True-up" review of Oracle licenses to identify over-utilisation or financial risks. Report on Licensing compliance
- Configuration and workflow controls
- User access and SoD conflicts
- Data quality and reporting

3.2. Integrated Billing System (IBS) & MDM – Revenue & Forensic Audit

- **Tariff Logic Verification:** Recalculate billing samples to ensure absolute compliance with NEPRA/GoP-approved tariffs (Billing cycle and tariff controls).
- **Unauthorized Data Change Detection:** Verify if any billing parameters, customer records, or financial adjustments have been modified without a valid, logged authorisation.

- User access controls
- Interfaces and data integrity
- Meter Data Management (MDM / AMR) Data acquisition and validation
- Integration with ERP
- Security and exception handling

Firms falling below this threshold shall score 0 marks under D1 but shall not be disqualified solely on this basis; their bid will proceed to evaluation with D1 = 0. However, where a firm's average annual turnover is less than PKR 50 Million, PESCO reserves the right to assess financial capacity as insufficient for contract performance and may request additional evidence of financial standing.*	
D1. Average annual turnover for last 3 years (as per audited financial statements): PKR 150 Million or above	6
D2. Valid tax registration (NTN, ATL) and no outstanding financial litigation or debarment	4
Section D Total	**10**
TOTAL TECHNICAL SCORE (Note: Sections A+B+C+D)	**100**

QCBS FINAL SCORE FORMULA (PPRA Standard)

Final Score = (Technical Score × 0.70) + (Financial Score × 0.30)

Where: Financial Score = (Lowest Bid Price ÷ Firm's Bid Price) × 100 × 0.30

The firm with the highest combined Final Score is awarded the contract.

(1) Minimum overall Technical Score: 60 out of 100

Financial bids of firms not meeting above thresholds will be returned unopened.

JOINT VENTURE / CONSORTIUM RULES

JOINT VENTURE / CONSORTIUM RULES
As per PPRA Rules 2004 and Project Requirements

In order to encourage the widest possible competition and to allow firms to combine complementary expertise in ERP audit, Billing/IBS audit, and IT Infrastructure audit, Joint Venture (JV) or Consortium arrangements are permitted under this procurement, subject to the following conditions derived from the PPRA Public Procurement Rules, 2004 and the specific requirements of this assignment:

1. Permissibility — A maximum of three (3) firms may form a JV/Consortium. No sub-contracting to a fourth party is permitted without PESCO's prior written consent. Each member of the JV/Consortium must be a legally registered entity in Pakistan or its jurisdiction of incorporation.

2. Lead Member / Prime Firm — The JV/Consortium must designate one Lead Member (Prime Firm), who shall be the single point of contact with PESCO, shall sign all correspondence and the contract, and shall be jointly and severally liable with all other members for the full performance of the contract.

3. JV Agreement — A duly signed and notarized JV Agreement (or Memorandum of Understanding) must be submitted with the bid, clearly stating: (a) roles, responsibilities, and scope allocation of each member firm; (b) the participation share of each member, which must total exactly 100% across all members, with no individual member holding less than 25% share; (c) confirmation that the Lead Member holds at least 40% share; (d) where three members form the JV, the remaining 60% shall be distributed among the other two members such that each holds a minimum of 20%, provided the total of all shares equals 100%; and (e) that the JV Agreement shall be binding until contract completion and performance guarantee release.

4. Eligibility Criteria — Combined — Eligibility criteria 1 through 4 (FBR/ATL, non-blacklisting, no investigation, conflict of interest) apply to EACH member of the JV/Consortium individually. Each member must submit separate declarations.

5. Mandatory Eligibility — Utility Audit Criterion — The CISA certification requirement (Eligibility Criterion 5), the Utility Audit requirement for the firm (Criterion 7), and the Utility Audit requirement for the Lead IT Auditor (Criterion 8) must be met by the JV/Consortium as a whole: the Lead Member or one designated member must satisfy Criterion 7 and provide the qualified Lead IT Auditor satisfying Criteria 5 and 8.

6. Key Personnel — Employment Proof — Employment Proof (Criterion 10) is required for all Key Personnel regardless of which JV member employs them. A Key Personnel cannot be shared across two or more JV members' capacity claims.

7. Technical Evaluation — Combined — For technical scoring purposes, the combined experience and qualifications of all JV/Consortium members shall be assessed together. Section A (Firm Experience) and Section D (Financial Capacity) shall be evaluated on the combined / aggregated

credentials of all members. Average Annual Turnover of PKR 150 Million applies to the combined turnover of all JV members.

8. Staffing Plan Requirement — The Staffing Plan (Section C3) submitted by a JV/Consortium must clearly identify which firm and which Key Personnel will lead each module (ERP, Billing/IBS, IT Infrastructure), and the basis for such allocation.

9. Financial Proposal — Single Bid — The JV/Consortium shall submit a single Financial Proposal through the Lead Member. Separate financial proposals from individual JV members shall not be accepted.

10. Performance Guarantee & Contract — The Performance Guarantee shall be submitted by the Lead Member on behalf of the entire JV/Consortium. The contract shall be signed by the Lead Member and all other members shall countersign or issue powers of attorney to the Lead Member.

11. Change in JV Composition — No change in the membership or structure of the JV/Consortium shall be permitted after bid submission without PESCO's prior written approval. Unauthorized changes shall render the bid or contract liable to rejection or termination.

12. PPRA Compliance — All JV/Consortium arrangements are subject to Rule 12 and other applicable provisions of the PPRA Public Procurement Rules, 2004, and PESCO's internal procurement policy. PESCO reserves the right to verify the authenticity of the JV Agreement and the individual eligibility of each member at any stage of the procurement process.

PART II — CONTRACT TERMS AND CONDITIONS

The following terms and conditions shall form an integral part of the contract to be signed with the successful Consultant for the Independent Third-Party IT System Audit of PESCO's ERP, Billing/IBS, and IT Infrastructure modules.

1. PAYMENT TERMS AND CONDITIONS	
1.1 Currency of Payment	All payments under this contract shall be made in Pakistani Rupees (PKR) only, through crossed cheque or direct bank transfer to the Consultant's declared bank account. No payment shall be made in foreign currency.
1.2 Mode of Payment	Payments shall be released strictly on a milestone basis against satisfactory completion and formal acceptance of each deliverable, as detailed in Section 3 (Milestone-Wise Payment Schedule). No advance payment shall be made except as specifically provided in Clause 1.3 below.
1.3 Mobilization Advance	An advance of up to 10% of the total contract value shall be released against submission of an unconditional Bank Guarantee of equal value from a scheduled bank operating in Pakistan, valid for the duration of the contract plus 60 days. The advance shall be adjusted proportionately against subsequent milestone payments until fully recovered.
1.4 Taxes and Deductions	All payments shall be subject to deduction of Withholding Income Tax under Section 153 of the Income Tax Ordinance, 2001, and Sales Tax on Services / Provincial Sales Tax on Services (KPRA), as applicable, at the rates prevailing at the time of payment. The Consultant shall be solely responsible for compliance with all applicable tax laws and shall provide a valid NTN and active taxpayer status throughout the contract period.
1.5 Payment Processing Timeline	PESCO shall process each milestone payment within 30 (thirty) working days of: (i) receipt of the Consultant’s invoice, and (ii) formal written acceptance of the relevant deliverable by the Deliverable Review Committee or its designated representative, whichever is later. Delay beyond 30 working days, where not attributable to the Consultant, shall entitle the Consultant to claim simple delayed-payment compensation at the rate of KIBOR (1-month) plus two percent (2%) per annum, calculated on a simple interest basis on the overdue amount for the period of delay, subject to availability of budgetary funds.

2. VERIFICATION MECHANISM FOR ACCEPTANCE OF CONSULTANT'S WORK	
2.1 Review and Acceptance Committee	PESCO shall constitute a Deliverable Review Committee. This Committee shall be responsible for reviewing each deliverable submitted by the Consultant against the approved TORs and certifying its acceptance or rejection.
2.2 Submission and Review Process	The Consultant shall submit each deliverable in both hard copy and electronic (PDF/Word) format. The Review Committee shall examine the submitted deliverable within 10 (ten) working days of receipt. The Committee shall either: (a) issue a Certificate of Acceptance, (b) issue a list of Observations / Required Revisions with a defined response period of not less than 7 working days, or (c) reject the deliverable as substantially non-compliant with the TORs. Where revisions are required, the Consultant shall resubmit the corrected deliverable within the stipulated period. The 10-working-day review clock restarts upon each resubmission.
2.3 Acceptance Criteria	A deliverable shall be deemed accepted only upon written Certificate of Acceptance issued by the Review Committee, confirming that: (a) the deliverable conforms to the scope, content, and quality standards specified in the TORs; (b) all findings are supported by adequate evidence, working papers, and risk ratings

	(High/Medium/Low) as specified; (c) audit methodology applied is consistent with the frameworks (COBIT, ISO 27001, NIST, ISACA Standards) committed to in the Consultant's Technical Proposal; and (d) Management responses, where applicable, have been incorporated or addressed.
2.4 Deemed Acceptance	In the event the Review Committee fails to communicate its decision (acceptance, observations, or rejection) within 15 working days of submission, and no request for extension has been made in writing, the deliverable shall be deemed provisionally accepted for payment purposes only, without prejudice to PESCO's right to raise substantive observations at a later stage prior to issuance of the Final Audit Report. For avoidance of doubt, the 10-working-day review period under Clause 2.2 is a target timeline for PESCO's internal review process. The deemed acceptance clock under this Clause 2.4 runs from the date of submission and supersedes the 10-day target: a deliverable becomes provisionally deemed accepted only upon expiry of the full 15 working days without communication, and not merely upon expiry of the 10-day review window.

7.2 Quality-Related Deductions	Where a deliverable is rejected by the Review Committee as substantially non-compliant with the TORs after two revision cycles (Clause 2.2), PESCO may, at its discretion, withhold the corresponding milestone payment in full until the deliverable is brought to an acceptable standard, without prejudice to PESCO's right to terminate the contract under Clause 7.4.

31.3 **Quality and Cost Based Selection (QCBS)**
In such combination, there shall be some specific weightage of both the technical features and financial aspects of the proposal. The financial marks shall be awarded on the basis of inverse proportion calculations. The successful bid shall be declared, on the basis of combined evaluation.

31.4 **Quality Based Selection (QBS)**
After meeting the requirements of eligibility, qualification and substantial responsiveness the bid in compliance with all the mandatory (technical) specifications/requirements and attaining highest marks in the Technical Evaluation considering all other qualitative and/or quantitative parameters (or point rated criteria) for technical proposal(s) such as working methodology, implementation plan, resource allocation, additional functionalities, risk

management approach, knowledge transfer techniques, post implementation methodology etc. shall be treated as highest ranked bid. Later on, the financial proposal of highest ranked bidder shall be opened, however, in case of failure to proceed further with such a bidder, the procuring agency may resort to second highest bidder and so on.

31.5 The Procuring Agency may adopt the Quality & Cost Based Selection Technique due to the following two reasons:

1. Where the Procuring Agency knows about the main features, usage and output of the products; however not clear about the complete features, technical specifications and functionalities of the goods to be procured and requires the bidders to submit their proposals defining those features, specifications and functionalities; or

2. Where the Procuring Agency, in addition to the mandatory requirements and mandatory technical specifications, requires parameters specified in Evaluation Criteria to be evaluated while determining the quality of the goods.

31.6 In such cases, the Procuring Agency may allocate certain weightage to these factors as a part of Evaluation Criteria, and may determine the ranking of the bidders on the basis of combined evaluation in accordance with provisions of Rule 2(1)(xxviii) of the Public Procurement Rules, 2026.

32. Abnormally Low Financial Bids

32.1 An abnormally low bid is a bid that, in light of the Procuring Agency's cost estimate, market conditions, or other received bids, appears to be unrealistically low and may not be sustainable for successfull contract execution.

32.2 **Where the Bid price is considered to be abnormally low, the Procuring Agency shall perform price analysis either during determination of Successful Bids or as a part of the post-qualification process.**

32.3 The Procuring Agency may reject an Abnormally low financial bid in accordance with Rule 43 of the Public Procurement Rules, 2026.

32.4 In order to identify the Abnormally Low Bids (ALB) following approaches can be considered to minimize the scope of subjectivity:

1. Comparing the Bid price with the cost estimate;

2. Comparing the Bid price with the Bid(s) offered by other Bidders submitting substantially responsive Bids; and

3. Comparing the Bids price with prices paid in similar contracts in the recent past either government- or development partner-funded.

32.5 The respective Bid Evaluation Committee will determine to its satisfaction whether the Bidder that is selected as having submitted the successful bid is qualified to perform the contract satisfactorily.

32.6 The determination will take into account the Bidder's financial, technical, and production capabilities. It will be based upon an examination of the documentary evidence of the Bidder's qualifications submitted by the Bidder, as well as such other information as the Procuring Agency deems necessary and appropriate. Factors not included in these Bidding documents shall not be used in the evaluation of the Bidders' qualifications.

32.7 Respective Bid Evaluation Committee may seek "Certificate for Independent Price Determination" from the Bidder and the results of reference checks may be used in determining an award of contract.

Explanation: The Certificate shall be furnished by the Bidder. The Bidder shall certify that the price is determined keeping in view of all the essential aspects such as raw material, its processing, value addition, optimization of resources due to economy of scale, transportation, insurance and margin of profit etc.

32.8 An affirmative determination will be a prerequisite for award of the contract to the Bidder. A negative determination will result in rejection of the Bidder's Bid, in which event the respective Bid Evaluation Committee will proceed to the next ranked Bidder to make a similar determination of that Bidder's capabilities to perform satisfactorily.
