BID REJECTION

i. Pursuant to Rules 21 and 24 of the PPRA Rules 2026, PSO reserves the right, at any stage of the procurement proceedings to verify the eligibility and qualification of any Bidder (including its joint venture partners, consortium members, owners, beneficial owners, directors and officers), and, where PSO has credible reasons or prima facie evidence of any defect in eligibility, to require the Bidder under Rule 24(1) to furnish information concerning its professional, technical, financial, legal or managerial competence. PSO may carry out such verification and screening through an independent third party engaged for that purpose in accordance with Rule 10(3)(d), which shall act solely in an advisory capacity and report to PSO, and the final determination of eligibility shall rest with PSO in accordance with the Rules.

ii. By expressing interest to bid, each Bidder undertakes to provide, within the time specified by PSO, all information, documents and cooperation reasonably required for such verification, and consents to the disclosure of such information to the independent third party, which shall be bound by confidentiality obligations consistent with Rule 53. Where a Bidder fails to meet the stipulated technical qualification requirements, or where the findings of such third-party evaluation warrant disqualification based on the prescribed eligibility and qualification criteria, PSO shall have the right to declare such Bidder technically non-responsive and exclude its Bid from further evaluation, including commercial/financial opening, as applicable under the prescribed bidding procedure and relevant PPRA Rules 2026.

iii. Any eligibility assessment, qualification, prequalification, approval or acceptance of a Bidder under this LPG tender shall be strictly limited to the procurement proceedings covered by this tender and shall not constitute, imply or be construed as qualification, prequalification, registration or approval of such Bidder for participation in any other procurement category or tender of PSO.
