Single Stage Two-Envelope Procedure (PPRA Rule 38)

This procurement shall follow a Two-Envelope Procedure. Envelope-1 shall contain the Technical Proposal and Envelope-2 shall contain the Financial Proposal (BoQ). Financial proposals of technically non-qualified bidders (scoring below 60/100) shall be returned unopened.

1. BACKGROUND & OBJECTIVES

1.1 About PRAL

PRAL operates across multiple office locations in Islamabad/Rawalpindi and provides critical technology services underpinning Pakistan's tax administration and revenue collection systems.

1.2 Current Printing/Copying/Scanning Environment

PRAL currently operates standalone printers/copiers/scanners across its office locations. The existing fleet is fragmented, lacks centralised monitoring, consumes high consumable costs, and presents data confidentiality risks through uncontrolled print release.

1.3 Procurement Objectives

- Replace the entire fragmented fleet with enterprise-grade multifunction devices (MFDs) with retention of at least 5 existing printers and 2 scanners.
- Implement PIN-code secured pull-printing/copying/scanning to eliminate unattended document release and protect confidential tax data.

- Establish a Cost-Per-Page (CPP) pricing model for print/copy/scan inclusive of all equipment, consumables, paper, maintenance, and support.
- Deploy a centralised control server for fleet-wide monitoring, usage analytics, and automated toner replenishment.
- Ensure a Resident operator is on-site during all working hours for immediate troubleshooting.
- Achieve full compliance with PPRA Rules 2004 and GoP data security requirements.

2. SCOPE OF WORK

2.1 Equipment Deployment

The successful bidder shall supply, install, configure, and maintain a fully operational Enterprise Managed Printing/copying/scanning Solution. All equipment shall be brand-new, current-model units from Tier-1 manufacturers. Refurbished, remanufactured, or end-of-life models shall NOT be accepted.

Device Category	Minimum Qty	Key Specifications
A3 MFD (Enterprise) (Only one device required)	As per deployment plan	Print/Copy/Scan/Fax, min 45 ppm, duplex, network, HDD, PIN-code pull, B & W/ Colour option

A4 MFD (Departmental)	As per deployment plan	Print/Copy/Scan, min 35 ppm, duplex, network, PIN-code pull, B & W/colour option
Heavy-Duty Production Printers/Copiers/Scanners	As required (post-survey)	Min 90 ppm, large-capacity trays, finisher, stapling, booklet
Standby / Backup Units	Min 10% of fleet	Equivalent to replaced device; deployable within 4 hours of SLA breach

Note: All deployed equipment remains the property of the Service Provider throughout the contract duration. Title shall NOT transfer to PRAL.

2.2 PIN-Code Secured Pull-Print/Copy/Scan Solution

This is a core security requirement. Every print, copy, and scan job across the entire fleet shall operate through a PIN-code (and optionally smart card) authentication mechanism. The following requirements are mandatory:

- Users shall register print/scan jobs from their workstations and authenticate at the MFD using a 4-to-8-digit personal PIN code before release.
- Unattended print/scan jobs shall be held in a secure queue and NOT printed until the authenticated user is not physically present at the device.

- All print, copy, and scan jobs shall be logged with: user identity, timestamp, device ID, page count, document name, and job type.
- Scan-to-email and scan-to-folder workflows shall also require PIN-code authentication.
- Active Directory (AD) / LDAP integration is required to synchronise user credentials with PRAL's existing directory infrastructure.
- The pull-print solution shall support guest PIN codes for temporary users, with audit trail logging.
- Failed authentication attempts shall trigger an alert to the system administrator after 3 consecutive failures.

2.3 Lot Structure

Lot	Description	Scope
