	replacement unit of equivalent specifications on a temporary basis to ensure uninterrupted operations until the original equipment is fully restored. 5. General Requirements: - Each machine should be equipped with complete kit of probes, suitable to change the oil on all types of vehicles. - All parts should be placed in good packing so that equipment can be handled safely during transportation. - Machine should be wheel mounted with Removal Tray. NOTE: - The supplier has to submit shipment documents at the time of delivery of equipment at PSO Central Stores. - PSO reserves the right to change (increase or decrease) the quantities after issuance of tender or purchase order with prior information. - Name / Data plate to be attached at visible location on each unit showing name of the manufacturer, model number, serial number and other relevant data. The printing / embossing should be of permanent type and not peel off or fade out with time. The same number should appear on the packing of the machine for ease of identification. - Acceptance of equipment shall be subject to prior inspection of Equipment/Material and Packing by any PSO nominated 3rd party (to be arranged by PSO). - The supplier/ Manufacturer will arrange Equipment inspection at their Factory premises before shipment. The manufacturer has to make available sufficient quantity of unpacked lot to third party inspector for random inspection as per MIL standard 105 E, Level III, AQL 1.0. The 3rd party will also inspect the equipment specifications along with the packing quality and necessary marking on packing. - The goods will be shipped after clearance / acceptance of Inspection Certificate from PSO provided by Third Party Inspector after successful completion of job at manufacturer's premises. - Furthermore, after Delivery of Equipment at Central store Kemari concerned Dept. of PSO will inspect further to match the specification.
