Additional Information

- The GNPI does not appear to align with the proposed increase in retention. Given the higher retention level, we would expect the GNPI to increase accordingly. The sheet with the revised GNPI is attached for your reference, please.
- The maximum retention has been requested at PKR 6bn; however, the proposed program limit is only PKR 3bn. To adequately address the PML exposure, we believe the total program limit should be increased to PKR 6bn. Yes, we agree that the limit should be Rs. 6 billion, as is the case with 50% MPL.
- We would also recommend that NICL consider purchasing an additional catastrophe layer to ensure the overall reinsurance structure remains appropriately aligned with the underlying exposure profile. Yes, we are

okay with that by purchasing an additional layer for CAT.

It is a condition of this Contract that each deposit premium instalment is paid to reinsurers within 90 days of the due date. Any loss payable under this Contract before the date of breach shall be reinstated pro rata as to amount based on the full-year minimum premium.

General Conditions:

This Contract shall be subject to the following Conditions:

A) Definition of "one Risk":

The Reinsured shall be the sole judge as to what constitutes one risk and to which class or category the risk belongs.

B) Definition of Each and Every Loss:

The words "Each and Every Loss" as applied to one Risk shall be understood to mean each and every loss arising out of one and the same event.

C) Event Definition (SR 460):

1. For the purposes of this reinsurance agreement, an event shall include all insured losses which arise directly from the same cause and which occur during the same period of time and in the same area. Such cause is understood to be the peril which directly occasions the losses or where there are several perils which, in an unbroken chain of causation, have occasioned the losses, the peril which triggered the chain of causation.

For example, as long as they are covered by this reinsurance agreement, losses occasioned by the perils set out below at letters

a) to f) shall constitute single events:

- a) storm due to an atmospheric disturbance usually so designated by a meteorological institute;
- b) hail and/or thunderstorms and/or tornadoes due to an atmospheric disturbance;
- c) earthquake, tsunami, volcanic eruption;
- d) flood by one and the same instance of high water which may have more than one peak and which may occur in one or more bodies of water;

General Conditions**(Continued):**

2. If the number of events cannot be determined according to paragraph 1, the following hours clause is then applied. An event shall thus encompass a continuous period of time starting with the occurrence of the reinsured's first individual loss and lasting:

- 24 hours for the peril mentioned under 1(b)
- 72 hours for perils mentioned under 1(a), (e) and (1)
- 504 hours for the peril mentioned under 1(d)
- 168 hours for perils mentioned under 1(c) as well as those perils not referred to in paragraph 1 but covered by this reinsurance agreement. In the case of differing perils which are not connected to each other by an unbroken chain of causation, the applicable number of hours corresponds to those of the peril which has caused the largest amount of damages.

3. In the case of more than one event, if it is impossible to allocate any losses, the reinsured shall allocate them to the event whose cause is most likely to have occasioned them.

In case of uncertainty over scientific issues, the parties agree to seek expert advice from a neutral and recognised organisation.

D) Extended Expiration:

If this Contract should expire or be terminated while a Loss Occurrence covered by this Contract is in progress, it is understood and agreed that subject to the other terms and conditions of this Contract, the Reinsurers hereon are responsible as if the entire loss or damage had occurred prior to the expiration or termination of this Contract, provided that no part of that Loss Occurrence is claimed against any renewal or replacement of this Contract.

E) Ultimate Net Loss Clause:

SECURITY DETAILS**Reinsurer's Liability****Clause LMA3333:****Reinsurer's liability several not joint**

The liability of a reinsurer under this contract is several and not joint with other reinsurers party to this contract. A reinsurer is liable only for the proportion of liability it has underwritten. A reinsurer is not jointly liable for the proportion of liability underwritten by any other reinsurer. Nor is a reinsurer otherwise responsible for any liability of any other reinsurer that may underwrite this contract.

The proportion of liability under this contract underwritten by a reinsurer (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of the syndicate taken together) is shown next to its stamp. This is subject always to the provision concerning "signing" below.

In the case of a Lloyd's syndicate, each member of the syndicate (rather than the syndicate itself) is a reinsurer. Each member has underwritten a proportion of the total shown for the syndicate (that total itself being the total of the proportions underwritten by all the members of the syndicate taken together). The liability of each member of the syndicate is several and not joint with other members. A member is liable only for that member's proportion. A member is not jointly liable for any other member's proportion. Nor is any member otherwise responsible for any liability of any other reinsurer that may underwrite this contract. The business address of each member is Lloyd's, One Lime Street, London EC3M 7HA. The identity of each member of a Lloyd's syndicate and their respective proportion may be obtained by writing to Market Services, Lloyd's, at the above address.

Proportion of liability

Unless there is "signing" (see below), the proportion of liability under this contract underwritten by each reinsurer (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of the syndicate taken together) is shown next to its stamp and is referred to as its "written line".

Where this contract permits, written lines, or certain written lines, may be adjusted ("signed"). In that case a schedule is to be appended to this contract to show the definitive proportion of liability under this contract underwritten by each reinsurer (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of the syndicate taken together). A definitive proportion (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of a Lloyd's syndicate taken together) is referred to as a "signed line". The signed lines shown in the schedule will prevail over the written lines unless a proven error in calculation has occurred.

Although reference is made at various points in this clause to "this contract" in the singular, where the circumstances so require this should be read as a reference to contracts in the plural.

Order Hereon:**Basis of Written Lines:**

Percentage of Whole.

Signing Provisions:

In the event that the written lines hereon exceed 100% of the order, any lines written "To Stand" will be allocated in full and all other lines will be signed down in equal proportions so that the aggregate signed lines are equal to 100% of the order without further agreement of any of the reinsurers.

However:

- a) in the event that the placement of the order is not completed by the commencement date of the period of reinsurance then all lines written by that date will be signed in full;
- b) the Reinsured may elect for the disproportionate signing of reinsurers' lines, without further specific agreement of reinsurers, providing that any such variation is made prior to the commencement date of the period of reinsurance, and that lines written "To Stand" may not be varied without the documented agreement of those reinsurers;
- c) the signed lines resulting from the application of the above provisions can be varied, before or after the commencement date of the period of reinsurance, by the documented agreement of the Reinsured and all reinsurers whose lines are to be varied. The variation to the contracts will take effect only when all such reinsurers have agreed, with the resulting variation in signed lines commencing from the date set out in that contract.

Written Lines:

In a co-reinsurance placement following reinsurers may, but are not obliged to, follow the premium charged by the lead reinsurer.

Reinsurers may not seek to guarantee for themselves terms as favourable as those which others subsequently achieve during the placement.

Signing Pages:

This Contract incorporates the following:

1. A Reinsurer signing page for each Reinsurer participating in this Contract, signature of which binds the Reinsurer and the Reinsured to the terms and conditions of this Contract.

Where the Reinsurer provides acceptance of a share by alternative correspondence, this shall constitute their formal signature until superseded by the signing page.
